

“Tell me the truth... do you ever give happy endings?”

My name is Jay and in the thirteen years since I became a professional massage therapist this is the one question everyone eventually asks me. It's a standard at parties when everyone is drinking. Everybody thinks it's a great question and it usually gets a lot of laughs. Of course we all know my answer will be 'No.'

But I'll tell you a little secret: *Under the right circumstances, I actually DO give happy endings!*

Now I don't offer them to guys (I am straight after all) and I never give them at work (I'm too good looking for prison) but if I'm dating a beautiful woman you can bet that sooner or later she's going to benefit from all my hands-on experience. And now, after years of requests from my friends and lovers, I finally wrote down my techniques and put them into a single volume: [Secrets of Sensual Massage!](#)

In this handbook I'm going to pull back the curtain and let you in on some of my professional massage secrets. I'm going to teach you how to drive your woman so crazy she'll be literally begging you for sex. Better yet, by the time you've read and implemented the techniques, I guarantee you'll be getting “repeat business” – if you know what I mean.

In [Secrets of Sensual Massage](#) you're going to learn:

- How to quickly transform your home into a “sex spa”
- The fastest and most powerful way to change the mood of ANY room
- The ONLY massage oil you should use (save hours of guesswork, sticky mess and even allergic reactions)
- The perfect temperature for massage - and why it makes her ready for sex
- The right - and WRONG - way to touch your woman
- The one accessory that will help your sex life, your physical health and your stress levels
- Understanding the critical differences between *therapeutic* and *sensual* massage
- And dozens more critical massage tips and tricks!

PLUS you also are going to get a complete hands-on sensual massage progression, starting at the very beginning and leading all the way to her orgasm. Here's a quick sample (starting at Step 29):

29. Kiss her mouth and ask how she's doing. Tell her you want to see her breasts. If you've followed all the earlier steps she will agree whole-heartedly.

30. Fold the sheet/blanket down until it's just below her belly button. Take your time revealing her.

31. Compliment her breasts. Tell her exactly what you like about them (aka “I love how they curve,” “They're so big and beautiful,” “Sweetest little nipples,” etc).

32. *While you're praising her, take oil and pour some on her shoulders and chest. DON'T MASSAGE HER BREASTS YET, just let the oil run down her body. (Having warm oil definitely helps here).*
33. *Position yourself so you're behind her head. Massage her neck and the top of her shoulders.*
34. *Massage down both arms to her hands and back up.*
35. *Massage down BETWEEN HER BREASTS (BUT NOT TOUCHING) and onto her stomach.*
36. *Gently massage around her stomach, along her sides and down towards her pelvis.*

Note on Breast Massage:

There are a lot of ways to massage breasts and all of them can be great. The key is to find techniques that she – and you – enjoy. Experiment. Take your time. Try using gentler and then firmer pressure. Try squeezing them. Focus on one first then the other – or both simultaneously. Use your mouth. Try biting very gently – or maybe not so gently. Move from top to bottom, side to side or in a swirling motion. Have fun and be ready because somewhere around this point most women will be begging to touch you...
